Subject: Hearing Regarding Juvenile Justice and Guns

To Whom This May Concern,

I am writing on half of a law-abiding citizen who strongly believes in the importance and practice of the second amendment. Bills like this that are trying to be passed are taking away the constitutional right of law-abiding citizens, the good guys. We as American citizens own the right to purchase what gun we want. Restricting the limit of pistols purchase will not suppress anything. The only harm that is doing is preventing the good guys from protecting themselves. DO NOT PASS THIS BILL. This is taking away our constitutional rights.

Thank you,

Chris Clark
